## Bye bye waiting time, Hello sales.

cleverQ e-tickets, your digital door opener for more sales and customer experience!

Professional queuing systems  
& appointment management  
made in Germany

# Reduce Queuing time

Here's how it works

1. You can generate QR codes for your queues with just a few clicks.
2. Customers scan the QR code with their smartphone camera.
3. Your customers are automatically added to a digital queue.
4. **Your customers can continue shopping during the waiting time instead of queuing for service.**
5. Customers are called up automatically and on time via push message, text message or web app.

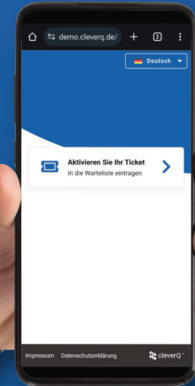

try it for yourself ...

Simply scan the QR code and try out our e-ticket. No app installation necessary.

After scanning this QR code, you will be added to our demo queue and automatically called up.

## Minimise waiting times, increase sales.

cleverQ - We make it happen.
